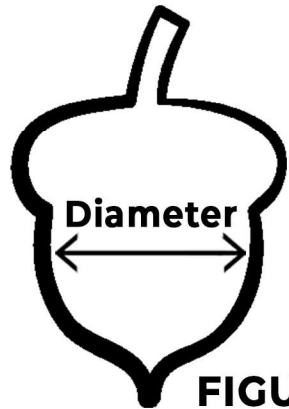

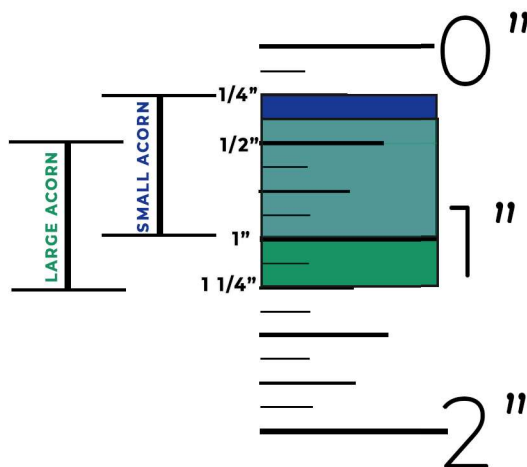

FIGURE 1

TO GET THE RIGHT BAG-A-NUT

1. Gather a sample of your acorns and measure their average diameter (figure 1)
2. Choose the **LARGE acorn harvester** for acorns **1/2" or larger** and the **SMALL acorn harvester** for acorns **smaller than 1/2"**

Small Acorn Harvester: Picks up acorns between 1/4" to 1" in diameter (average diameter of 5/8")

If your acorns are smaller than 1/2" choose the **SMALL** acorn harvester.

Large Acorn Harvester: Picks up acorns between 1/2" to 1-1/4" in diameter (average diameter of 7/8")

If your acorns are 1/2" or larger choose the **LARGE** acorn harvester.
